

JASMINA JOVY®

HOW TO FIND YOUR RING SIZE

DETERMINE YOUR RING SIZE:

Print this PDF vertically onto a DIN A 4 paper and make sure that you have chosen the right printer settings. You should deactivate the option to scale the paper format. Compare the test bar to a ruler. The line must be exactly 10 cm in length.

> Put an available ring onto the circle template. The outer line should be visible within the ring. Use a similar ring. Slim and broad rings can vary in size.

> If you do not have any rings on hand, we will gladly send you a ring game, through which you can easily determine your ring size at home. Just send us an e-mail or use our Service-Hotline.

> Our chain rings turn out smaller depending on the ring type. Please feel free to ask us if you have any questions.

> Broad rings (with a profile of 8 mm in height or above) should be bought 1 or 2 sizes bigger. Especially starting at a ring-height of 12 mm. Slim rings with a profile under 1,2 mm can be bought a size smaller.

> Our most popular sizes for women are 52, 54 and 56 and for men 58 and 60. The common size for our knuckle rings (rings worn above the knuckle) is 48.

Ring Size	48	49	50	51	52	53
Inner Diameter in mm	15,3 mm	15,6 mm	15,9 mm	16,2 mm	16,5 mm	16,8 mm
	54	55	56	57	58	59
	17,2 mm	17,5 mm	17,8 mm	18,1 mm	18,4 mm	18,8 mm
	60	62	64	66	68	
	19,1 mm	19,7 mm	20,3 mm	21 mm	21,6 mm
